

# **AGENDA**

## **South Dakota State Emergency Response Commission**

**Tuesday December 15, 2015  
10:00 a.m. Central**

- 1. Introductions**
- 2. Call to Order and Roll Call**
- 3. Approval of September 15, 2015, SERC Meeting Minutes**
- 4. Federal Update – US EPA**
- 5. LEPC Grant Awards - DENR**
- 6. HMEP Grants, Training, and Planning Report – OEM**
- 7. Regional Haz Mat Team Update – HLS/OEM**
- 8. Other Business**
- 9. Adjourn**

---

### **Held via the Digital Dakota Network at the Following Locations:**

**Brookings, South Dakota  
Department of Transportation  
2131 34th Avenue**

**Pierre, South Dakota  
State Capitol Building  
Basement– Studio A – Room B12**

**Mitchell, South Dakota  
Mitchell Technical Institute  
Room TC 155  
1800 E Spruce St**

**Rapid City, South Dakota  
Rapid City/Pennington County Emergency Management  
130 Kansas City St. Suite 130**

LEPC's that have submitted paperwork demonstrating they are active and qualify for Grant Funds.

Memorandum

To: State of South Dakota SERC  
 From: Bob Van Winsen  
 CC: Cari Leidholt  
 Date: December 10, 2015  
 Re: Fourth Quarter FFY2014 HMEP Grant Report

Training grant:	Fed Share: <b>\$110,979.69</b>	Non Federal Share (Match): <b>\$27,744.69</b>	Total: <b>\$170,832.63</b>
Planning grant:	Fed Share: <b>\$59,852.94</b>	Non Federal Share (Match): <b>\$14,963.70</b>	Total: <b>\$74,816.64</b>

First Quarter: **October, November, December, 2014**

Training: Allocated: <b>\$100,446.88</b>	Unallocated: <b>\$10,532.81</b>
Planning: Allocated: <b>\$33,900.00</b>	Unallocated: <b>\$25,952.94</b>

(\$30,000.00 has been allocated for 9 awareness classes to be held during the GY2014 performance period)

Second Quarter: **January, February, March**

Training: Allocated: <b>\$122,946.69 (see note)</b>	Unallocated: <b>\$532.81</b>
Planning: Allocated: <b>\$45,385.00</b>	Unallocated: <b>\$1,967.94</b>

Third Quarter: **April, May, June**

Training: Allocated: <b>\$123,969.43</b>	Unallocated: <b>\$(489.74)</b>
Planning: Allocated <b>\$41,385.00</b>	Unallocated <b>\$5,967.94</b>

Fourth Quarter **July, August, September**

Training: Allocated \$	Spent \$	Remaining funds \$
Planning: Allocated \$	Spent \$	Remaining funds \$

**Note: \$12,500.00 was moved from planning to training to accommodate requests for awareness training**

**Note II: An additional \$1,175.53 was moved from planning to training.**

## GY2014 HMEP Activities and Goals.

The GY2014 HMEP training grant application was sent to fire chiefs, local emergency managers and EMS personnel throughout the state. The goal of the training grant is to assist in training public sector personnel and first responders how to identify and properly respond to transportation related hazardous materials incidents. The following classes to name a few are listed in the State application:

- Awareness and Operations
- EMS Hazardous Material, level 1 and level 2
- Technician level and above, for State of South Dakota recognized hazardous material teams
- Various conferences allowable under the grant guidelines.

The GY2014 HMEP planning grant application was sent to LEPC chairmen and the local emergency managers. The planning grant is available to assist the local LEPC's meet their responsibilities for planning of hazardous materials in the community. Specifically, these funds can be used to:

- Prepare the annual update to the hazardous materials plan required under SARA Title III. The cost of hiring a contractor and all related out of pocket expenses can be covered with this grant. **If the last major plan update was several years ago, each county is encouraged to apply for this grant.**
- Conduct a commodity flow study to determine the hazardous materials flowing through the road/rail system in each jurisdiction. This information can then be used to improve planning for hazmat incidents.
- Conduct hazardous material exercises to better prepare personnel in response to a hazardous materials event.

The application deadline stated is the requested time to get applications to OEM but we will accept applications after this date as long as funds are available and the work is completed and invoiced by the end of the performance period.

The performance period for the HMEP GY2014 grant is October 1, 2014 through September 30, 2015.

### Challenges and Goals:

- Training:

The challenge expending funds due to the consortium the hazmat teams were once utilizing has come to an end. The waiting period for the facilities using FEMA funds has drastically increased. The 4 state hazmat teams have returned to the HMEP grant for assistance. With the limited amount of money the State of South Dakota receives, allotments of \$25,000.00 are being awarded to the hazmat teams. If all of the funding is not allocated the hazmat teams will be notified and they can apply for more.

The goal of providing awareness classes is being met. There are 9 eight hour classes are being scheduled using GY2014 funds. There are also going to be five 4 hour classes sponsored by LEPC's.

Request for Proposal (RFP) is the method the State of South Dakota has been using to attract and secure contractors for the training courses. The RFP requires the contractor furnish proof of eligibility to teach the class which eases the burden of verifying instructor qualifications for the State. This also allows competition creating fair pricing.

- Planning

With the commodity flow study completed in the western portion of the state in 2012 the State feels with the increase in oil field related activity more in depth flows studies should be completed.

The local planning districts have been getting involved in assisting LEPC's update or write hazmat emergency operating plans. This has created an avenue for the local authorities to take that is familiar and utilizes grant dollars available.

- GY2014 Grant Planning and Training

The HMEP grant application process at the federal level has been evolving over the last couple of years. At the present time it is a little cumbersome but I believe the changes that are being made will produce a more efficient program. This in turn will benefit the LEPC's and their communities.

One change calls for the grantee (SD) who is applying for the grant submit all training and planning projects in detail with costs. This requires that the grant administrator contact VFD's, regional hazmat teams, EMS providers, LEPC's and County Emergency Managers to request application submittals. Presently we wait to see what the grant amount proposed will be which usually comes out the 1<sup>st</sup> of February each year. Applications are sent to the locals, returned by the first week in March and processed. The application package the State fills out has to be turned in to HMEP grants by the 4<sup>th</sup> of April. This process gives a 2 month period to send and receive applications from the locals and submit an application.

As grant administrator I would like to request that the SERC find and make available funds to match the planning grant portion. I would request using the same process as when the state wide commodity flow studies were conducted for the East and West portion of the State of South Dakota. This would allow the state grant administrator to develop an RFP to secure a contractor to conduct commodity flow studies starting in the NW region where the oil field activity is prevalent. This should be implemented each grant cycle which would prevent grant dollars being returned at the end of the grant year.

The state grant administrator attended the 6 emergency management quarterly region meetings. Information about the HMEP grant purpose, availability and performance timelines was shared.

Most of the goals that were set were met.

Problems meeting the awareness training goals were lack of attendance projected. The Eventbrite system was used to register for the classes. Deadlines were given and if enough people didn't register the class could be cancelled.

The hazmat plan numbers were up this year. I would attribute the increase with getting the planning districts involved. There is a working relationship already established between the locals and planning districts.

The extension we asked for and received allowed Butte County to complete their hazmat plan.

HMEP grant personnel came to Pierre from Washington DC and conducted a site visit in September. We did very well. Two suggestions were to update the agreement used to allocated funds to the locals. That has been completed and will be used for the 2015 grant. The second suggestion was to create a reporting system so progress can be monitored throughout the performance period of the grant. That is been incorporated in the new agreement.

The State grant administrator would like to have discussion with the SERC about the use of a completed hazmat plan as an example for those who are not familiar with one.

# Training

## First Quarter Review

- Prepare and send out the GY2014 HMEP applications to each of the 4 Hazmat teams, Fire Chiefs, County Emergency Managers, and State of South Dakota Regional Coordinators.
- Applications were returned and processed.
- Agreements were returned.
- Work can proceed.
- No requests for reimbursements have been received.

## Second Quarter Review

- Process applications as received
- Process reimbursement requests as received

## Third Quarter Review

- Work with contractor to hold awareness classes. Had a few cancellations. Found a couple of other agencies wishing to hold a course.
- Process applications.
- Plan for 2015 and 2016 HMEP grant.
- HMEP offered an extension to the 2014 grant. Asked for and received a 90 extension so Butte County can finish there Hazmat Plan.

## Fourth Quarter Review

- The training numbers estimated at the beginning of the grant period were met.
- Work is being done to implement a condensed operations class. This class would replace the 8 hour awareness class with the purpose of teaching more than an awareness class without getting past the participants resource capabilities.
- Will close out the 2014 grant 12/31/2015.
- Staff attended the National Association of SARA Title Three Program Officials fall conference in Houston Texas in September. Federal HMEP grant specialists were in attendance. Discussion was had detailing the plans and dates the three year performance period for the FY2106 HMEP grant will go into effect.

# GY2014 Planning Grant

Planning Activity	County	1 <sup>st</sup> Quarter Completed
Hazmat Plans	Butte, Edmunds, Tripp, Todd, Warhawk District (to include Campbell, Walworth, Dewey, Corson, & Ziebach counties.)Roberts, Yankton, Jones	
Commodity Flow Study		
Hazmat Exercise	Todd	

Planning Activity	County	2 <sup>nd</sup> Quarter Completed

Commodity Flow Study		
Hazmat Exercise	Todd	Todd County

Planning Activity	County	4 <sup>th</sup> Quarter Completed
Hazmat Plans	Butte, Edmunds, Tripp, Todd, Warhawk District (to include Campbell, Walworth, Dewey, Corson, & Ziebach counties.)Roberts, Yankton, Jones	Butte, Edmunds, Warhawk District, Roberts, Jones. (Tripp and Yankton cancelled)
Commodity Flow Study		
Hazmat Exercise	Todd	

# Planning

## First Quarter Review:

- Prepare and send applications to LEPC chairpersons, County EM's and Regional Coordinators
- Applications were returned and processed.
- Work can proceed
- No requests for reimbursements have been received.

## Second Quarter Review

- Added three new Hazmat Plans to be done under this grant cycle.
- No reimbursement requests this quarter.

## Third Quarter Review

- Process Todd County reimbursement requests for a hazardous materials exercise and to write a hazardous materials plan.
- Contact applicants to monitor progress on planning projects.

## Fourth Quarter Review

- Review hazmat plans that were sent in for reimbursement. The quality of the plans is improving.
- Two of the applicants who had been approved for funding did not get started on their plans. This contributed to the excess remaining funds that will have to be returned.
- Work continues to build strong relationships with the planning districts.

## HMEP Grant Year 2015

The applications for the 2015 were sent out to the LEPC's, Fire Chiefs, Local Emergency Managers, and EMS providers for the GY2015 HMEP Planning and Training grant. The return date for these applications was March 6, 2015.

The request for funding submitted by the locals was used to create and submit the State application to HMEP Grants.Gov.

The State of SD has been provided a preliminary amount of \$171,612.00 for the planning and training grant.

The applications submitted by the locals will be prepared and ready to send out once HMEP Grants. Gov. authorizes expenditure of the GY2015 funds. The State of South Dakota is to be notified before the performance period begins October 1, 2015.

The federal grant administrators have scheduled an audit and will be in SD sometime in September.

The HMEP2015 grant has been awarded. The State administrator will sign the award. Applications for the funds were received in March. Agreements will be written and sent out to applicants for signature. The performance period for the 2015 HMEP grant is October 1, 2015 through September 30, 2016.

The grant administrator wishes to have discussion with the SERC about the quarterly report. Is there something the SERC would rather see in the report that is not currently being reported? Does the SERC wish to have anything in particular removed?

The agreements for applications are being prepared to be sent out. Staff is putting together the email groups the applications will be sent to.
